I'm not entirely sure but I saw the psychiatrist today and she said she wants to write me a prescription for a service dog BC she thinks it would really help my anxiety. So I can technically have whatever kind I want, but I'm thinking a golden. What kind do you think would be good?

Ok I understand obviously and I am sorry about all the stress and nothing is more important to me than fixing myself for my sake and everyone's around me and finding out why this happened. I was just saying I think we could have a long and wonderful future and I could really see us going the distance because I am committed to fixing the things that I need to work on and am extremely committed to you

And also I know I drive you so crazy so much of the time and it's been so hard for me to hear you say you didn't want me to call you baby the other day and that we're not a match because I really think we could be so amazing together especially given how much we have been through together. We actually could turn it around

And then I was gonna tell you I have to get a service dog for my anxiety and I was thinking and hoping we could pick one together and he could kind of be ours. I'll pay for him and keep him and stuff but I just thought it could be fun for us and we could take him out and play with him and all that. I just thought it would make me feel less like a loser for having to have a service dog if he's kind of just a real dog for us

I wanted to say this. You and your family have been my saviors and guardian angels in what has happened to me. All of you have proven to be amongst the most selfless, caring, people my family has met and my parents want to know if they could take everyone out to house of prime rib for the holidays so we could show our appreciation and get to know each other better.

I took today to write down a lot of recurring complaints I have heard you saw about me so I can give them in therapy. I want you to know I listen and want to get better. You deserve the best girl on this earth and I know it's me. I will be a great mother to kids one day and you will be tremendous dad. I see this fabulous little family filled with so much love and honesty and happiness.

I love you so deeply there aren't words for it. I will go to the end of the earth to make you dreams became reality if you need me to. I will be THAT reliable of a partner, not being the one you have to worry about all the time. I'm gonna be the great Netflix and chill girl, hooking up in lingerie, glacier walking, spontaneous, NYE kissing, supportive, understanding, co dog owner, and eventually wife that you deserve and that is my life's mission that I will paint tomorrow. I love you more than I have ever loved any man in the world.

That's all sounds nice. I know it makes you feel better to look ahead, but you need to live in the present while you get help.

I'm not even supposed to have a phone at all. I just can't focus on getting better or therapy or anything because I don't know what is going on with you and if I have screwed up everything, which I think I have, and I hate myself for it so much

I got to check my phone one more time. I am praying nothing happened to you and that your stepdad is getting better. I'm so sorry for what I put you through and care about you more than you know. This place is absolute hell and I will never come back. Please text me back as soon as you get this and know how important you and your happiness is to me. I am learning the tools to make myself happy and in turn make you happy. I am here at least through tomorrow afternoon as I don't think I am ready to go home (even though the 24 hour hold is lifted) and then I am going to continue really thorough outpatient treatment in the mornings for a while.

Mike, you have meant everything to me. Your wellbeing, your happiness...I've genuinely tried and I've failed miserably. I just came to the conclusion last week that I will never get being a good girlfriend "right" and having a family down the line is the goal I've had for my life since I was little. But I just keep screwing it up and I've realized that maybe some people are just not meant to live long and have families. I am causing you and your family and my family so much pain by being around and it's not fair to anyone anymore. For as much as I try, I will always screw up, even though my intentions have always been good. But I don't want you to feel hurt and upset at me all the time and I really don't think there's anything I can do to rectify my actions. I truly took you for your words this weekend and I feel absolutely broken. I don't want to go on continuously making mistakes and embarrassing myself, all while unintentionally hurting people on the way, and I have genuinely come to the conclusion that this world, and the people in my lives, would be a tremendous amount better without me in them. I'm sorry for any pain I have caused and I promise you I will get rid of myself so there won't be more pain for you and you can find happiness because you deserve it more than anyone I know.

I'm sorry you feel that but that's ridiculous. You would cause so much pain to everyone if you ended your life. You need to work on you if you want an us which is what I've always stated. The mistakes that your making are from unrealistic expectations and giving ultimatums which isn't fair to anyone. We all care about you which is why we spent so much time talking with you this entire weekend.

I'm just asking for paperwork to check out. I can't do this. And the fact that you guys spent so much time talking to me means the world to me. But it doesn't change the fact that I can't get it right in the area that means the most to me. I literally just can't no matter how hard I try. I've always dreamed of being this confident girl that you would be so proud to be with and show off and no matter what I try to do, I'm not her. I know you're not proud to be with me and you're with me because I've forced you into it rather than because you really want to be with me. I'm not stupid. I don't want to waste your time anymore. It's not fair to you. Another girl can make you so tremendously happy and I just don't have that capability as much as I wish I did. Literally the last thing I want to do is force you to be with me. And I know you don't want to. I mean your reaction even with the Instagram of being so upset and embarrassed to be with me said enough. I understand. I wouldn't be proud to be with me either or want to like a photo with me. I'm sorry I've been such a pain in your ass. I genuinely just want you to be happy in the future and I can picture you being this tremendous husband and father to a family but I just need to come to terms with the fact that it won't be my family and that I did everything I could think of to try to make you happy but it just didn't work. I'm not capable of making you happy.

It sucks too cause I really had wanted to be that girl but it's too late now, I've screwed it all up, and I'm just gonna go quietly.

Don't check out because you need help. You put both of our families through a lot this weekend and to just give up would be a slap in the face to everyone involved. You need to stay in there.

If you just relaxed and acted yourself instead of trying so hard things would probably be different. Focus all of that trying energy into fixing yourself because it benefit not only you, but everyone. We all care about you and want to see you happy and succeed which is why we spend so much time this weekend

Laura, I don't think you understand what you did this weekend. This isn't some quick thing everyone just gets over. You caused a lot of tension and even a huge fight within my family while we were at the hospital because you had to have answers to your bf and iceland questions. If you don't get why I made the decision I did then you must think I have no compassion. I left the room of a dying man because to talk for you for hours and stressed all through the nights because I care so much about you

I emotionally hurt so badly right now and have hurt everyone around me so much. I literally have had this stupid picture in my head for months of us being together forever and having kids and being happy and I can't figure out how to do that. I just mess up. It's not even worth me trying. I just seriously need to be done. I feel like the worst person in the world for frustrating you so much and I know you will be better off if I'm not around. Maybe not initially, but in the long run it will allow you to find happiness with someone else and you deserve that so that's what I will do.

I forgot to tell you that my therapist is wanting me to set aside time at the end of each day to focus on what I am grateful for. I am so, so incredibly thankful for you and your care towards me. It's interesting because one of the things we talked about was "love" and how much anxiety I have had about that in our relationship. It really hit me over the head today that just over this past weekend, you SHOWED me the love more than I have ever felt from any guy. It really got me emotional. I feel your feelings for me and I didn't want you to think they went unnoticed. You are so wonderful and appreciated by me and I promise to show how lucky and proud I feel to be with you each day. My goal is to each moment with you and appreciate every baby step that eventually leads to big ones. You deserve the world and I am not just going to try, I AM going to give it to you as the great partner you deserve. Xoxo.

I also had wanted to let you know we were invited to these (and that my boss is very understanding and said we can just start again next week) but my text to you is more important. I'm gonna talk about what I said and what you said in my morning individual session. I know you will be great in your review and I'll be thinking about you ☐☐☐
